- Empyema of the Antrum of Highmore—Berger 258
- Empyema of the Maxillary Sinus Operated Through the Canine Fossa—Castex 258
- Mucous Polypi of the Left Maxillary Sinus—Gavello..... 259
- Right Maxillary Empyema Operated Through the Canine Fossa—Castex 129
- The Treatment of Empyema of the Maxillary Antrum—Meyjes. 318

IV. LARYNX, TRACHEA AND ŒSOPHAGUS.

GENERAL.

- A New Method of Tubing the Larynx—Jarnette 189
- Benign Incurable Paralysis of the Recurrent Laryngeal Nerve, Following Measles—Lermoyez.. 319
- Bilateral Paralysis of the Posterior Crico-Arytenoid Muscle of the Larynx—Baker..... 260
- Case of Spasmodic Dyspœa—Barnett 71
- Chorditis Vocalis, Inferior—Freer 192
- Chronic Laryngitis, Cases and Results—Woodward 69
- Chronic Stenosis of the Larynx, with Illustrative Cases—Jones. 319
- Cutting of the Thoracic Portion of the Trachea, Following Injury of the Neck by a Sharp Instrument—Vanverts 260
- Experimental Work on the Penetrability of Vaporized Medicaments Into the Air Passages—Thomas 204
- Edema Laryngis of the Climacteric—Uchermann 382
- Extraction Through the Mouth of a Plate Lodged in the Œsophagus—White 137
- Hysterical Aphonia—Brown 69
- Ichthyol in Acute Laryngitis—Cieglewicz 186
- Indications of Intubation—McClanahan 329
- Intubation for Foreign Body—Sevispe and Bonnus..... 190
- Laryngeal Necrosis in Enteric Fever—Duffy 192
- Laryngotomy for Subglottic Stenosis—Castex 259
- Maladies of the Voice—Castex... 259
- Paralysis of the Left Recurrent Laryngeal Nerve in Mitral Stenosis—Osler 319
- Some Defects of Speech; Their Cause and Treatment, with Exhibition of Cases—Makuen.... 146
- Spasm of the Glottis and Sudden Death in Whooping Cough—Chaumier 382
- Spasmodic Closure of the Glottis in an Adult—Stillson..... 191
- Statistics on Hereditary Disturbances of the Speech Function—Gutzmann 138
- The Development and Care of the Singing Voice—McKinney 191
- The Differential Diagnosis of Ulcerative Diseases of the Pharynx and Larynx—Gibbs..... 186

- The Pathology of the Voice Center—Onodi 279
- The Spasmodic Night Cough, with Vomiting and Coryza, in Children—Gastow 204
- Treatment of Different Forms of Aphonia, Due to Laryngeal Lesions—Collins 318
- Two Cases of Ludwig's Angina or Sublingual Phlegmon—Casselberry 192
- Urticaria Involving the Larynx and Causing Asphyxia—Woodbury 260-383

ASTHMA.

- Asthma: Its Cause and Treatment—Parker 202
- Asthma Relieved by Compression of the Vagus—De Miranda... 261
- The Pathology of Asthma—Kant-hack 330
- A Case of Bronchial Catarrhal Asthma—May 203
- Asthma—Mott 261

FOREIGN BODIES.

- A Foreign Body in the Air Passages—Pegessoc 190
- A Teasel Burr in the Larynx—Smith 131
- Foreign Body in the Air Passages—Peyrissac 131
- Foreign Bodies in the Bronchi—Lendon 321
- Foreign Body in the Larynx—Peyser 190
- Notes of Two Cases of Foreign Bodies in the Air Passages—Swift 69
- Plugging of Trachea by Caseous Gland—Longbotham 130
- Three Cases of Foreign Body in the Œsophagus—Heaton 322
- Two Cases of Foreign Bodies in the Air Passages—Wigg..... 131

MALIGNANT GROWTHS.

- A Case of Epithelioma of the Larynx, Laryngectomy and Partial Pharyngectomy, Death on the Eleventh Day from Exhaustion—Shurly 319
- A Case of Hyaline Myxoma of the Larynx—Galdier 259
- Early Diagnosis of a Case of Cancer of the Larynx—Clark and Harrington 130
- Extirpation of the Larynx and Œsophagus—Garre 132
- Malignant Growth of the Larynx—Myles 70
- Multiple Papilloma of Larynx—Hickey 70

- Radical Operation for Malignant Neoplasms of the Larynx—Lemon 259
 (1) Sarcoma of the Larynx; (2) Sarcoma of the Naso-Pharynx in an Infant—Halstead 188
 The Surgical Treatment of Malignant Disease of the Larynx—Delavan 223

SYPHILIS.

- Painful Dysphagia Evidence of Syphilis—Garel 320
 Precocious Oedema in Secondary Syphilis of the Larynx—Lacroix 190
 Some Remarks Upon Syphilitic Manifestations in the Larynx—Vaughan 320
 Syphilitic Laryngitis, with Cases—Straight 190

TUBERCULOSIS.

- A Case of Primary Tuberculosis of the Larynx—Trifiletti 70
 A Case of Primary Tuberculosis of the Larynx—Bullen 71
 Curettage in Laryngeal Tuberculosis—Gleitsmann 71
 Laryngeal Stenosis, Due to Advanced Tubercular Disease Relieved by Intubation—Delavan 191
 Phthisis, or Pulmonary Tuberculosis—Campbell 333
 Treatment of Laryngeal Phthisis—Murray 185
 Tuberculosis of the Larynx in Children—Plicque 180
 Tuberculosis of the Throat; Its Treatment—Thomas 320

V. EAR.

GENERAL.

- A Reply to the Question: What Is the General Practitioner to Do with Cases of Ear-Ache?—Sprague —
 Auricular Disturbances, Due to Late Hereditary Syphilis—Monari 327
 Auricular Manifestations of Grippe—Courtade 198
 Care of the Ears in Early Life—Bryant 261
 Contraction of the Jaws in Suppurative Lesions of the Ear—Pietro 198
 Convulsions Due to Aural Disease—Verdos 198
 Discussion on Tinnitus in Its Relation to Nasal and Aural Affections—Randall 55
 Earache: Its Importance—Hinkle 193

- Ear Manifestations in General Disease—Phillips 261
 Eczema of the External Auditory Canal 332
 Epidemic Cerebro-Spinal Meningitis—Councilman 199
 Mono-Auricular Diplacusis—Etievant 265
 Natural Gas and Eustachian Inflammation—Kyle 72
 Painful Paralysis of the Facial Nerve with Herpes Zoster of the Ear—Jacquet 345
 Pneumonia Observed in Twelve Cases, at Various Stages of the Operation, for Section of the Incudo-Stapedial Articulation and Mobilization of the Stapes—Gleason 161
 Some Things the General Practitioner Should and Should Not Do in the Treatment of the Ear—Audenried 384
 Spontaneous Discharge of a Cerebro-Spinal Liqueur from the External Auditory Canal—Probably a Congenital Fistula—Escat 263
 Sudden Deafness with Report of Case—Herron 384
 The Differential Diagnosis of Reflex and Otophlogistic Otalgia—Weyman 324
 The Hygiene of the Ears—Dowling 262
 The Hygiene of the Ear: In Health and in Disease—Ewing 322
 The Influence of Diseases of the Nares and Pharynx on Aural Affections—Somers 133
 The Politzer Air-Bag—Baker 293
 The Prognosis and Treatment of Peripheral Facial Paralysis—Allaire 266
 The Relation Existing Between Bright's Disease and Certain Ear Symptoms—Dowling 197
 What Can Be Accomplished by Treatment of the Eustachian Tube—Marshall 72

EXTERNAL EAR.

- Eczema of the External Auditory Canal—May 193
 Exostosis of External Auditory Canal—Goldstein 383
 Fracture of the Cartilages of the External Ear—Somers 72

FOREIGN BODIES.

- A Contribution to the Study of Foreign Bodies in the Auricular Canal—Carette 322

- Auricular Vertigo Due to Foreign Body Thirty Months in Auditory Canal—Cerf 198
- Death Following Removal of a Foreign Body from the Ear—Bruhl 322
- The Removal of Wax from the Ear—Ricci 263
- MIDDLE EAR.**
- Acute Inflammation of the Middle Ear—Ellett 324
- Acute Myringitis—Seiss 73
- Another Contribution to Surgery of the Middle Ear—Faraci 264
- Cholesteatoma; Cerebral Abscess Death—Thomas and Lantail... 384
- Cholesteatoma of the Middle Ear, Pathology and Treatment—Bouyer 264
- Does Tympanotomy and Removal of the Incus Arrest Progressive Hardness of Hearing?—Burnett 264
- Earache and Discharging Ears in Children—Morrow 193
- Facial Paralysis in Acute Otitis Media—Damieno 325
- Intratympanic Surgery; Especially in Chronic Purulent Otitis Media—Burnet 75
- Ossiculotomy in Chronic Suppuration of the Middle Ear—Stucky. 194
- Paracentesis of the Drum in Middle-Ear Disease—Roosa 133
- Prevention of Scarlatinal Otitis—Canby 193
- Purulent Otitis Media—Ludewig. 169
- Sclerosis of the Tympanum—Castex 325
- Simple Device in the Treatment of Acute Otitis Media—Bishop. 194
- Some Further Results in Treating the Ears by Massage Methods—Lautenbach 199
- Stacke's Operative Exposure of the Middle Ear and Its Recesses for the Cure of Chronic Otorrhoea—Pischl 75
- The Microbe of Influenza and Acute Grippal Otitis Media—Loewenberg 325
- The Operative Treatment of Chronic Suppuration of the Middle Ear—Gleason 73
- The Surgical Treatment of Acute Inflammations of the Middle Ear—Dench 74
- The Treatment of Acute Suppurative Otitis Media by Means of Free Irrigation Through the Eustachian Canal—Meniere.... 263
- Three Cases of Suppurative Otitis Media—Woods 133
- Traumatic Rupture of the Tympanic Membrane—Braislin 172
- Treatment of Suppurative Otitis Media—Gradle 74
- MASTOID.**
- A Case of Abscess of the Cerebellum, Following Disease of the Ear—Kirkland 233
- A Case of Cerebellar Abscess—Woodward 327
- Cerebral Abscess and Phlebitis of the Sinus of Otic Origin—Cade. 265
- Cerebral Abscess Consecutive to Purulent Otitis Media—Bergamini 154
- Extradural Cerebral Abscess of Aural Origin with Thromboses of the Lateral Sinus, in which the Sinus was not Opened; Operation; Recovery—Bronner... 135
- Intracranial Complications from Suppurative Otitis Media—Poli 263
- On Intracranial Complications of Suppurative Otitis Media—Gradenigo 326
- On the Prevention of Pyemic Complications from Acute Otitis Media—Church 193
- Ptoxis as a Symptom in Abscess of the Temporal Lobe—Steinbrugge 198
- Pyemic Sinus Thrombosis, Etc.—Whitney 194
- A Case of Otitis Media Purulenta Acuta (double), with Mastoiditis on Left Side, Following Removal of Adenoids—Collins... 115
- A Case of Scarlet Fever Complicated with Acute Suppurative Otitis Media and Acute Hemorrhagic Septicemia Treated by Antistreptococci Serum; Recovery—Low 134
- A Case of Acute Mastoiditis with Lobar Pneumonia, Followed by Lateral Sinus Thrombosis and Pyemia; Recovery Without Operation—Parsons 326
- A Case of Spontaneous Mastoid Pneumatocele—Josserand and Carle 197
- Acute and Chronic Caries and Necrosis of the Mastoid Process—Knapp 75
- A Neglected Case of Extensive Double Suppurative Mastoiditis, with Complications—Long. 298
- Diseases of the Mastoid; Their Cause and Treatment—Milbury 197
- Mastoid Empyema, Etc.—Smith.. 163

CEREBRAL COMPLICATIONS.

- Radical Operation of the Mastoid—Barkan 135
 Report of a Case of Double Mastoid Abscess with Openings Into the Cranial Cavities—Crouch... 265
 Two Cases of Mastoiditis with Abscess of the Neck—Bryan.. 135

INTERNAL EAR.

- Labyrinthine Phenomena Dependent Upon Middle-Ear Diseases, and Their Relief by Local Treatment—Deuch 200
 Motor Excitation in Deaf Mutes on Whom Acoustic Exercises Are Practiced—Gelle..... 227
 The Pathology of the Cortical Auditory Center—Alt 227
 Training the Deaf—Scheppegrell. 200

VI. (a) DIPHTHERIA.

- A Case of Faucial, Nasal and Aural Diphtheria—Burnett..... 76
 Alkalized Serum as a Culture Medium for Bacterial Diagnosis of Diphtheria—Cobbett 76
 Antidiphtheritic Serum and Diphtheria Albuminurica—Sprouck. 137
 A Report of Thirty-eight Consecutive Intubations for Diphtheritic Croup, with Thirty-six Recoveries; All Treated with Antitoxin—Waxham 286
 Diphtheria—Walsh 328
 Diphtheria Affecting the Skin—Sharp 328
 Diphtheria and Antitoxin—Moriarta 329
 Diphtheria and Membranous Croup, Their Differential Diagnosis and Treatment—Davidson 329
 Diphtheria Antitoxin: A Report of the Clinical Society of London—(Committee Clinic Society of London) 329
 Diphtheria Antitoxin as an Immunizing Agent—Donald..... 202
 Heart Complications in Diphtheria—Hibbard 77
 Intubation and Antitoxin in Diphtheritic Croup—Strong..... 286
 Milk and Diphtheria—Taylor .. 137
 Nasal Diphtheria Complicated by Broncho-Pneumonia—Hamill .. 308
 Observations in Diphtheria—Jero-witz 328
 On a Special Form of Diphtheroid Angina—Vincent 267
 The Clinical Relations of the Loeffler Bacillus—Wachenheim. 329

- The Diagnosis and Treatment of Diphtheria—Henderson 266
 The Early Diagnosis of Diphtheria—Jaques 328
 The Etiologic Significance of the Loeffler Bacillus—Czaplewski... 136
 The Influence of Antitoxin in the Treatment of Laryngeal Diphtheria With and Without Intubation—Rosenthal 266
 The Possibilities and Limitations of Serum Therapy—Sanders... 330
 The Possibilities of Antitoxin in Diphtheria—Suttie 136
 The Preparation of Loeffler's Solution for the Local Treatment of Diphtheria..... 201
 The Result of the Serum Therapy in Diphtheria—Kronlein 202
 The Value of the Use of Diphtheritic Antitoxin in the Treatment of Pseudo-Membranous Croup—Hall 267
 The Vitality of the Diphtheria Bacillus—Macgregor 76

VI. (b) THYROID.

- A Remarkable Case of Goitre—Miller 386
 An Extraordinary Acute Case of Graves' Disease—Sutcliff..... 77
 Exophthalmic Goitre in Four Children in the Same Family—Holmes 321
 Nasal Symptoms in Myxedema—Cleveland 76
 The Thyroid Gland in Goitre—Morello 321

VII. THERAPY AND INSTRUMENTS.

THERAPY.

- A New and Successful Treatment of Certain Forms of Headache—Vansant 268
 Antinosine in the Treatment of Diseases of the Eye and Ear—Coleman 205
 Argonin versus Boric Acid in Acute Suppuration of the Middle Ear—Gray and Thompson. 332
 Benzozol in Diseases of the Respiratory Apparatus—Peyser. 268
 Cimicifuga in Tinnitus Aurium—Robin and Mendel..... 332
 Creosote in the Treatment of Ozena—Ferrerri 78
 Eucaïne Hydrochlorate "B" as a Local Anesthetic in the Nose—Somers 331
 Formaldehyde in Hay Fever—Alexander 140

| | |
|---|-----|
| For Inhalation in Catarrh of the Upper Air-Passages—Kafemann | 78 |
| Formic Aldehyde in Tubercular Laryngitis—Cohen | 269 |
